DEMANDS FOR INFLATION IN U.S. RENEWED

Pittman Carries Appeal for Free Coinage to President Roosevelt

WILL POUR MILLIONS INTO FARM CREDITS

WASHINGTON, Sept. 19 (AP).—Apace with renewed demands for inflation to aid United States agriculture, the administration today disclosed plans for spreading \$400,000,000 over farm states within six months, to ease the farmers' mortgage burdens.

Concurrently with announcement by the Farm Credit Administration of this accelerated programme, spokesmen, for cotton and silver, pressed upon the White House demands for currency expansion immediately, as part of the recovery campaign.

CALLS ON PRESIDENT

Key Pittman, of Nevada, President pro tempore of the Senate, and for years silver's advocate in Congress, took directly to the President, an appeal for free coinage. Before going to the White House, Pittman sent to Mr. Roosevelt a brief arguing that the President had the power, under the Inflation Act, to authorize minting of silver from bullion. Smiling broadly later, Pittman declined to intimate what the President had said, asserting, however, that Mr. Roosevelt "asked a lot of questions."

OUTLINES PROGRAMME

Henry Morgenthau, Governor of the Farm Credit Administration, divulged the speedy programme in prospect from that agency. He called for greater liberality in appraising farm lands, and gave as the December objective of his administration machinery, loans at the rate of more than \$50,000,000 a month in an intensive campaign to move the money to the grower.

Representatives of the cotton states went with Senator Smith, of South Carolina, chairman of the agricultural committee, to the White House to present a petition they had adopted yesterday. It called for inflation and for pegging the cotton price at 20 cents a pound, and the cotton seed price at \$30 a ton.

Unable to see the President, they set up a committee to stay in Washington until he returned to the cold that kept him confined to the residential portion of the White House today.

DID NOT ARRIVE FOR OPERATION

Bernt Balchen, Famous Flyer, Disappeared After Seeing Doctor

CAPE TOWN, Sept. 20 (AP).—Lieutenant Bernt Balchen, the first man to arrive yesterday with Sir Hubert Wilkins, suffering from acute appendicitis, has mysteriously disappeared and his present whereabouts is not known.

Balchen left the ship on which he and Sir Hubert arrived at 4 p.m. and took a taxi to a hotel where he underwent an operation, but he never reached the hospital.

Newspeople who boarded the ship early today found Sir Hubert and the captain and crew of the vessel still awake, anxiously awaiting news of Balchen.

DID NOT REAPPEAR
Persons aboard the ship said the airman met a doctor at a hotel in town after asking a taxi containing his belongings to wait for him. Having talked to the doctor a while, Balchen excused himself and left the room. He did not reappear.

Eventually the taxi driver returned to the ship with Balchen's belongings. Police were immediately notified and made searches and inquiries throughout the night and early morning. They telephoned all hospitals and nursing homes in the city but did not succeed in obtaining any trace of him.

Balchen gained fame as pilot for Admiral Richard E. Byrd on his South Pole expedition.

WARNED AGAINST CONVERTING COIN

Heavy Penalties Provided for Offenders Who Melt Down Golden Money

OTTAWA, Sept. 19 (CP).—A warning to those who might be tempted to melt down gold coin in order to secure the high price now prevailing for the raw metal, is contained in a statement issued by the Department of Finance today.

Heavy penalties await those who might be tempted to take advantage of the market in that manner.

Section 25 of the Currency Act provides that the penalty for illegally dealing with such gold coin shall be a fine not exceeding \$250, or imprisonment for not more than twelve months, or both fine and imprisonment.

Dedication Ceremonies at Memorial Park

MRS. R. H. POOLEY, wife of the Attorney-General, will officially open the Fitzherbert Bullen Memorial Park, Esquimalt, pictured above, today at 2:30 o'clock. Reeve Albert Heald and other civic and municipal dignitaries will be present. The public is invited to attend. A band, composed of members of the Canadian Scottish Regiment, will play throughout the afternoon. At 3 o'clock, sports for school children will be held, while at 4 o'clock Spencer's soccer eleven will meet Esquimalt senior team in a sudden death game for the Brunson Cup.

UPRISING OF REBELS CAUSES RESIGNATION OF CUBAN PRESIDENT

Trainload of Soldiers Sent Against Veteran Leader by Government

OFFICIALS PREPARE FOR INSTANT ACTION

HAVANA, Sept. 19 (AP).—Beset by a serious rebellious movement in Camaguey Province, President Ramon Grau San Martin tonight placed in the hands of his supporters the decision whether he should abdicate in response to a five-fold demand by opposition groups.

The President announced he already had written out his resignation and turned it over to his political followers, expressing his willingness to "abide by their decision."

TO COMBAT REBELS
Meanwhile, the Government dispatched a trainload of soldiers toward Moron, in Northwestern Camaguey Province, to combat an uprising led by Juan Blas Hernandez, a veteran rebel leader against the regime of former President Gerardo Machado.

The Student Directory, staunch supporters of the present regime, went into permanent session to consider the opposition ultimatum that Grau San Martin step out to enable the formation of a "truly national" government.

WASHINGTON, Sept. 19 (AP).—An apparently rising tide of insurrection toward Moron, in Havana, as pictured here by Cuban news agency, has mysteriously disappeared and his present whereabouts is not known.

FRENCH VESSEL TAKING SALMON

First Shipment Under Quota Agreement to Leave Victoria on Winnipeg

When the French Line Ss. Winnipeg completes loading here today, she will carry to France from Victoria, there will also be a substantial shipment of frozen salmon from the Victoria Cold Storage & Terminal Warehouse aboard. According to officials of the cold storage company, it is the largest shipment made from the local plant this season.

This consignment of frozen salmon follows quickly on the announcement that negotiations between the Federal Government and France with regard to the amount and the time of shipments of salmon, under the quota provided by the French-Canadian treaty, had been completed.

Under the new treaty, Canada is allowed to ship 220,000 cases of salmon over a fourteen months' period, under a tariff that allows shippers to compete on equal terms with Japanese producers.

Dry Law Repeal Carries In Idaho and New Mexico

BOISE, Idaho, Sept. 20 (AP).—Idaho took her place tonight almost certainly in the columns of states demanding repeal of the Eighteenth Amendment.

Votes from 586 of the 819 precincts gave 47,734 for repeal to 34,834 against repeal.

Votes from the mining counties of Northern Idaho turned the tide sharply against the Eighteenth Amendment, although other dis-

Conflagration Robs Halifax of Historic Pier Worth Million

Fire Still Sweeping Ruins After Raging for More Than Twenty Hours and Destroying Entire Building and Contents—Calm Over Harbor Lessens Menace to Adjacent Piers

HALIFAX, Sept. 19 (CP).—This seaport city tonight counted among her major conflagrations, the loss of historic "Pier Two," with estimated damage of at least \$1,000,000. Raging more than twenty hours after its discovery, the mysterious blaze late tonight was still sweeping over the shattered ruins.

The flames, however, were confined within the tumbled walls and there was no danger to neighboring frame piers, where shipping schedules were continued. Only one fireman was seriously injured, when he fell from an upper-level loading platform, but two others, overcome by smoke, were out of the battle for a short time.

Earl Chases Burglars in Himley Hall

DUDLEY, Worcestershire, England, Sept. 19 (CP).—With a poker in one hand and a revolver in the other, the Earl of Dudley, who is a close friend of the Prince of Wales, spent part of last night chasing burglars at his home, Himley Hall, he revealed today.

The earl, first-rate shot, declared the burglars took little more than his night's sleep, and escaped by diving through a window.

The Earl of Dudley was awarded the Military Cross during the war, in which he served with distinction for four years. He is also a Chevalier of the Legion of Honor.

RIOTS INCREASE POLITICAL TENSION

Domination of Fascism or Democracy in Austria Still an Undecided Issue

VIENNA, Sept. 19 (AP).—The decision whether Fascism or Democracy shall dominate the new Austrian constitution, still hangs in the air, it was revealed tonight at the Federal Chancellery of historic Belvedere Palace.

The building was heavily guarded with steel-helmeted soldiers as correspondents of the Austrian and Canadian Pacific Railways were taking a strike vote as result of the threatened cuts.

UNFAVORABLE CONDITIONS
Numerous speakers denounced the Government and the railways for what they described as unfavorable working conditions. Some delegates said employees of the roads were receiving \$7 to \$13.34 per week. Others claimed shopmen were so poor they were forced to bind their broken shoes with string.

Still others said some railwaymen were forced to apply for relief because of their low salaries. Debate on the subject lasted three hours.

Other speakers denounced firms who charged women employees, entitled under the Minimum Wage Act to \$12.50 a week, and hired instead, men who were asked to work sixty hours a week for wages of \$6.

Premier Will Open Fall Exhibition At Saanich Today

Splendid Aggregation of District Products Assembled for Sixty-Fifth Annual Fair—Numerous Additions to Buildings and Equipment

VISITORS to the North and South Saanich Agricultural Society's sixty-fifth annual Fall exhibition that is to be formally opened by Premier Tolmie at 1 o'clock this afternoon will find, in addition to the numerous attractive exhibits in fruit, vegetables, needlework, art and livestock, more improvements to buildings and equipment than have been made in any single season since the erection of the main hall.

A generous programme of Highland dancing and games, and children's school sports, are further attractions offered this afternoon, and tonight there will be a dance.

NEW YORK MAYOR LEADING CONTEST

John F. O'Brien Has Substantial Margin in Vote for Democratic Convention

NEW YORK, Sept. 19 (AP).—Mayor John F. O'Brien assumed a commanding lead tonight in the vote for the Democratic majority nomination.

Justifying the predictions of John F. Curry, Tammany chairman, Mayor O'Brien tallied up a heavy lead in the primary election over Representative Loring M. Black and Assemblyman Jerome G. Ambro on the face of incomplete returns.

In 610 of the 3,794 districts in the five city boroughs, O'Brien was ahead of Black, his nearest opponent, by a margin of four to one; and Ambro was trailing far behind.

The vote was O'Brien, 45,268; Black, 11,772; Ambro, 3,226.

CABINET TO MEET TODAY

Will Hear Report on Disarmament Discussions Held in Paris

LONDON, Sept. 19 (CP).—Captain Anthony Eden, Under-Secretary for Foreign Affairs, will report on the disarmament conversations held in Paris yesterday, at a special meeting of the British Cabinet tomorrow.

France, in the discussions, urged definite control and supervision of arms and also a preliminary trial period before disarmament becomes effective. It is understood French insistence on these points was responsible for calling the British Cabinet meeting.

FRANCE SKEPTICAL
Alarmed by reports Germany was rearming, contrary to the provisions of the Treaty of Versailles, France is skeptical of any disarmament agreement that does not provide for definite supervision.

The Republic's representatives claim there should be automatic supervision at regular state periods. Captain Eden had a long interview with Prime Minister Ramsay MacDonald today, in which the entire question was canvassed.

HEARING ADJOURNED IN MURDER CASE

LADYSMITH, Sept. 19.—Louis Poulain appeared before Magistrate J. E. Lowe this morning for preliminary hearing on a charge of murdering R. Douglas Syme on September 7. The hearing was adjourned until Monday, September 25, to enable accused to procure counsel.

NOT FACTORS IN WHEAT EXPORT

France and Germany Outline Measures Taken to Raise Prices

LONDON, Sept. 19 (AP).—France and Germany were virtually removed today as factors in the wheat exporting field for next year through statements issued by their representatives on the International Wheat Advisory Commission.

The measures being taken by those governments to aid the wheat recovery programme by increasing consumption and, in Germany's case, by decreasing acreage, were outlined. The representatives of the other importing nations told how their governments were modifying agricultural policies aiming to improve wheat.

WILL SETTLE ISSUE

Soviet Russia will settle the issue of her share in world wheat exports in conversations to be held Friday or Saturday with the big four exporters, Canada, United States, Australia and Argentina. Russia was represented as feeling her allotment of 4,000,000 bushels was not large enough.

The Danubian countries, Hungary, Rumania, Yugoslavia and Bulgaria, have reached an agreement upon allotments in the export trade, it was announced. The four countries were allotted 50,000,000 to 54,000,000 bushels in the recent wheat agreement signed here. It was disclosed Hungary got the largest share, 29.1 per cent. Rumania accepted 23.9 per cent, Yugoslavia 22.1 and Bulgaria 14.9 per cent.

GIVING AMERICA SPECIAL SECTION

Non-Members of League of Nations Abundantly Represented at Geneva

GENEVA, Sept. 19 (AP).—With the American Minister to Switzerland, Hugh R. Wilson, practically living in Geneva, and with five members of the consular staff, headed by Francis B. Gilbert, deputy secretary, the League of Nations gave today to inaugurate a special American section.

Arthur Sweetser, of Boston, one of President Wilson's aides when the Covenant was drafted in Paris, is slated to take charge.

So the Americans, though non-members of the League, are likely to have a personnel greater than powers who are permanent members of the council.

Changing of Offices Is Part of National Campaign of Economy

D. B. Plunkett, M.P., for Victoria, Explains Reasons for Government's Removal of Public Works Head to Mainland City

In order to carry out, in full, the policy of the Dominion Government to economize in all departments from coast to coast, it was imperative that the three public works districts in British Columbia be consolidated and the head office placed at Vancouver, so that the efficiency should in no way be impaired by the change. D. B. Plunkett, M.P. for Victoria, told members of a special committee of the Chamber of Commerce here yesterday.

Mr. Plunkett further explained that the selection of Vancouver was made because of its more central location and the public works headquarters were moved to that point so as to enable the department, with its decreased staffs, to take care of the maintenance work in the greater area of the province. The sub-district offices at Nelson and New Westminster, he stated, had been closed by the change.

SEEKS INFORMATION
The meeting with Mr. Plunkett yesterday was arranged by the committee of the Chamber of Commerce in order to secure information concerning the efficiency of the department of the public works in Vancouver, over which there has been considerable controversy. Mr. Plunkett carefully explained the whole situation and was emphatic concerning the reasons for the removal—solely of economy.

Members of the committee, however, stated they were not satisfied that the removal was necessary and intimated they considered the reductions in staff could have been made without any change in the location of the department office. To this Mr. Plunkett replied that it would not have been possible to maintain the efficiency of the department in Victoria and fully expressed his regret that the action was necessary.

CONCERNING FUTURE
The committee further complained that it was not advised by the Government that the change was contemplated and was somewhat anxious concerning other departments. Mr. Plunkett said he would strenuously oppose any further removal of offices from this city and sought the aid of the Chamber of Commerce and other public organizations to prevent them, if the occasion should arise. He offered his wholehearted support to the committee in the interests of Victoria, but in so far as the removal of the public works office was concerned, that was a closed book and protests would be of no avail.

During the meeting Mr. Plunkett produced figures to show that approximately \$24,000 would be cut from the public works administration in British Columbia by the consolidation of districts. Mr. Plunkett also took occasion to criticize articles that had appeared in the afternoon paper concerning the change. These he characterized as "deliberate lies" and not based on facts that could have been secured from the Federal departments at Ottawa.

Artists at Magicians' Convention

—Central Press Photograph.

SLEIGHT-OF-HAND artists, card tricksters, ambidextrous marvels, funny folk and magicians in the world of magic. Each member contributed a "stunt" for the edification of their antics. Pictured in the midst of their antics are, left to right, William J. Van Berkel, famed in the field of card magic; Lawrence Valli, the clothed clown; Frank Whitson, who playfully removes a dove from your inside pocket; Frank Whinn, whose specialty is the well-known rabbit stunt; and Arthur Valli, who accommodates a quart bottle from the innards of his pint-size hat.

most every variety of apple grown in the Peninsula, as well as currants, plums, grapes, and blackberries. The Layritz Nurseries entered a display in this section.

APPLES AND FRUITS
Although Vancouver Island has not attained the reputation of some of the upper country districts for apple-growing, Saanich is producing some excellent fruit. The Gravenstein are particularly successful in the Fall apples, and the King is a general favorite as a Winter apple. Other varieties found on the long table were: Wealthy, Alexander, Macintosh, Snow, Lemon Pippin, King of Tompkins Company, Baldwin, Yellow Bellflower, Blenheim Orange, Jonathan, Wagner, Grimes Golden, Cox Orange, Gravenstein, and Winter Banana and Delich.

WANT MORE INSPECTORS
The convention passed a resolution urging appointment of more inspectors for the Minimum Wage Board, but defeated another which would have had the effect of asking for a minimum wage regulation for all employees, men and women alike.

The congress went definitely on record in favor of a thirty-hour work week consisting of five six-hour days with no reduction in wages but rather with an increase in pay "to increase the purchasing power of the masses."

MANY COMMUNIST SUSPECTS ARRESTED

GUSLAR, Germany, Sept. 19 (AP).—Police, operating in various Harz Mountain towns, today arrested 262 persons, including one native of Holland, on suspicion of Communist activities.

WELL'S FUMES FATAL

LANDIS, Sask., Sept. 19 (CP).—Overcome by gas fumes while digging a well, L. Schaffhauser, of Cavell, Sask., died before he could be brought to the surface. The accident occurred on the farm of E. R. Dunnett, near Cavell. The fumes were so powerful all attempts to reach the man, fifty-three feet below the surface in time, were futile.

A WONDERFUL ESCAPE

EDMONTON, Sept. 19 (CP).—Mrs. Will Landis, twenty-nine, was arrested last night by city police officers, on a charge of attempting to commit suicide. The arrest was made on her discharge from hospital. Two weeks ago, Mrs. Landis took poison in sufficient quantity to kill twenty persons, but the dose was so great, her system did not absorb it.

PROFESSOR'S WARNING

Reviewing the various plans which are being tried in many countries of the world to cope with the depression, Dr. W. A. Carrothers, professor of economics at the University of British Columbia, warned the B.C. School Trustees' convention against sacrificing the education of youth at the present time.

CONFAGRATION ROBS HALIFAX OF HISTORIC PIER WORTH MILLION

Continued from Page 1
trol of the pier all day, belching clouds of smoke and hot ashes that kept the men at bay.

Flour, canned goods, salt and general cargo provided fuel at a cost of about \$400,000, and it was reported that only 350 cases of liquor had been saved after the first alarm went in.

The pier itself was erected twenty years ago at a cost of \$1,500,000, and its destruction will be a serious loss to the Halifax Harbor Commissioners.

Hundreds of stevedores are out of employment, and it is probable they will not be placed on other piers for some time.

Household Hints

By Mrs. Mary Morton

Souffles made with crackers don't fail, and go farther.
Cookies and cakes made with corn syrup will keep moist in the summer time.
Use ginger snaps for making a "cracker crumb" crust for your next apple pie.
If articles for ironing are wrapped in a large Turkish towel until ready for ironing it will keep an even dampness throughout the clothes and makes ironing much easier.
When buying canned goods, if the sides of the cans bulge outward do not accept them. These cans contain gas and the contents are spoiled.
An excellent preventive for scurvy on a baby's head is white vaseline rubbed on the baby's head. This also acts as a splendid tonic for the growth of the hair.
To remove perspiration stains, mix one part of oxalic acid to twenty parts of water. Apply with a small brush.
A whistle for calling children will save parents' throats and the neighbors' ears. Have an understanding with each child who is to come when the whistle is heard, by giving a different number of blasts, long or short, for each youngster.
If a small brush or whisk broom is used to sprinkle clothes, hotter water can be used, the clothes will be more evenly dampened, and can be ironed much sooner.

CITY PROTEST IS ANSWERED

Federal Minister Indicates No Change in Policy on Office Removal

Hon. H. A. Stewart, Federal Minister of Public Works, indicated in a telegram to the mayor yesterday that there would be no change in policy with regard to the removal of the Dominion Public Works offices from Victoria to Vancouver.

The mayor, on behalf of the council, had protested the removal of the offices on the grounds that the Government owned its own building here and would have to rent offices in Vancouver; and that employees who had made their homes here would have to sell them in order to move to Vancouver and retain their jobs.

In reply to the protest, Mr. Stewart sent the following telegram:

"In reply, may I state that before department decided to consolidate engineering services in British Columbia and replace three existing offices by one office at Vancouver, matter of various works and requirements on Vancouver Island was given most careful consideration. You may rest assured that every attention will be given various works and requirements of department on the Island and that every interest will be fully protected."

'NEW DEAL' ASKED FOR EX-SOLDIERS

President of Canadian Expeditionary Force Federation Outlines Problems

"A new deal" for all ex-service men in Canada will be the object of the Canadian Expeditionary Force Federation of Canada according to N. L. Glozier, organizer and president of the organization, speaking at a meeting here Monday night. He declared that the reason for the present economic distress was in difference on the part of the voters who were apparently not interested enough to exercise their franchise, and that the only way to alleviate our ills was by organization and education.

Mr. Glozier outlined briefly the inception of the new organization,

Refreshes Eyes After Reading

Millions use Murine to refresh and invigorate their eyes after reading, sewing or other protracted use. It almost instantly relieves eye strain and thus prevents more serious trouble. 150 applications of this utterly harmless lotion cost only 60c. Keep a bottle always handy to quickly end eye fatigue.

MADE IN CANADA

Grand Champion of Show With His Owner

BEGGAR Boy, nine-year-old gelding belonging to Mrs. D. B. Carley, on the last night of the annual horse show at the Provincial Exhibition at the Willows, was awarded the James Bay Hotel special trophy as best horse in the championship class. Nearly forty horses competed in the various events during the week, and the Kentucky-bred Beggar Boy secured the champion ribbon from a string of fourteen or fifteen first and second prize winners in the week's events. Arriving here about six years ago with a string of race horses and growing fame as a race track favorite, he proceeded to add to his laurels by winning several steeplechases during the week. The Carley Stables were fortunate in securing him, and during the horse show last week, as on many previous occasions, he was shown to great advantage by having either Mr. or Mrs. Carley in the saddle. His stable mates, Sir Wilfred, Pop Over and Chenango, also did extremely well during the week.

which began a year ago in Vancouver when a delegation of ex-service men, all members of the Canadian Legion, came to him and asked him to start the present movement. It had grown in the space of a year, he said, to such an extent that there were now over 2000 members in the Post No. 1 at Vancouver, while other posts had already been started at Burnaby, New Westminster, North and West Vancouver, and at one of the relief camps at White Rock.

TO ENTER FIELD

"We will play an active part in the coming provincial election in certain constituencies," declared Mr. Glozier, "where we are pledging certain candidates to our fourteen-point platform. These candidates are Independent C.C.F. party C.C.F. Independent Conservatives and in some cases, Independent Liberals." He stated that the candidates thus selected had to pledge themselves to uphold and fight for the planks on the Canadian Expeditionary Force Federation platform, which includes, among other things, the elimination of discrimination; complete readjustment of the pension system in Canada; preference to veterans for employment in government posts; free hospitalization for all veterans; veterans' relief to be replaced by pensions; nationalization of all veterans who are not Canadian citizens, and pensions for all war widows.

ALL VETERANS ELIGIBLE

Mr. Glozier emphasized the fact that the organization would not confine itself to veterans of the Great War, but to those who had fought in any war; women's auxiliaries and junior organizations for the children of veterans. He also

pointed out that the Canadian Expeditionary Force Federation was opposed to Fascism and Communism or any other radical form of government, but stood for sane common sense principles free from graft and maladministration.

NAME OFFICERS FOR ELECTION

Five Returning Officials Appointed in Remaining Provincial Ridings

Returning officers in the five remaining centres of the province were named by the Government yesterday, and ratified by order-in-council, signed late in the afternoon. Previously, returning officers were named in thirty-four ridings, the additional appointments completing the list. The appointments were as follows:

North Vancouver, Ernest Noel Copping, North Vancouver; Vancouver-Burrard, George H. Andrews, Vancouver; Vancouver Centre, Francis Drewe Pratt, Vancouver; Vancouver-East, Thomas Irvine, Vancouver; and Salmon Arm, Reginald R. Perry, Salmon Arm.

Returning officers throughout the province will name their own election clerks, deputy returning officers and poll clerks. All forms used in connection with preparation for a provincial general election are now in the hands of the various officials, with the printing of the completed voters' lists to come next.

Nomination day will be on October 12, followed by polling on November 2.

CITY-WIDE RALLY OF BOYS IS HELD

Leaders in Work Meet in Metropolitan United Church for Conference

With thirty young men present, representing twelve churches, the city-wide rally of boys' leaders in all church and Y.M.C.A. activities, conducted in Metropolitan United Church, all day Sunday, under the supervision of the Victoria and District Boys' Work Board.

Taking the theme "Enrichment" for the conference, the leaders held discussion groups, and heard an address in the afternoon on the subject by Rev. C. G. Mackenzie. He showed how the programme of the Tuxis and Trail Rangers groups, run in conjunction with the church, served to enrich the lives of boys and young men, and explained how the leaders could gain this enlightenment and in turn pass it on to their wards.

NEW PHASES OF WORK

Rev. E. R. McLean, of the Religious Educational Council, was over from Vancouver to lead discussion groups on the day's theme, and he was able to introduce the leaders to many new phases of boys' work.

The song of the Tuxis groups, "Great Heart," was rendered by Frank Tupman.

To leaders and many boys, Rev. E. F. Church, in the evening concluding the rally, preached an instructive sermon on "Damaged Lives," showing the fallacy of young boys in going astray.

Rev. J. H. A. Warr was chairman of the conference.

WILL AWARD PRIZES FOR BERRY CROPS

KEATING, Sept. 19.—The South Saanich Farmers' Institute will hold its meeting on Thursday, September 28, instead of on the regular date, Thursday, September 21, at the Temperance Hall, East Saanich Road.

A speaker from the Department of Agriculture will address the members on the world's grain exhibit at Regina. The meeting will commence at 8 o'clock.

Prizes for the strawberry and loganberry crop competition will be presented at this meeting.

"Do you believe in dreams?" "Well, last night I dreamed I was awake, and in the morning my dream came true."

RADIO MEN ARE DINNER GUESTS

De Forest-Crosley Co. Host to Local Distributors and Salesmen

Marking the tenth anniversary of De Forest-Crosley radios in Canada, the local salesmen and distributors were guests of that firm at a dinner last night in the Princess Louise dining-room of the Empress Hotel. E. P. Johnston, provincial manager of the concern, and J. R. Boliens, credit manager for British Columbia division, were the representatives of the organization.

"Ten years ago, with three men and a woman bookkeeper, and a small capital, the De Forest-Crosley Radio Company was launched in Canada," stated Mr. Johnston, in a brief address. "Today," he continued, "we rank very high in the radio set market."

The losses of the De Forest-Crosley last year were lower than any other organization engaged in producing radio sets in Canada, Mr. Johnston stated. The firm this year has adopted a new policy of production. Complete elimination of sets that were slow sellers in previous years, and completion and production of radios that combine latest features with low cost were the main factors in the new policy, he declared.

STREAM-LINED SETS

"We have introduced in our new 1933-34 machines the latest radio development, stream-lined sets. These machines are admirably synchronized with cabinets that are in keeping with the modern trend," said Mr. Johnston.

The speaker then told of the automobile radio perfected by the De Forest-Crosley concern. He pointed out that one year ago this feature was thought to be impossible. However, a leading engineer of the organization, after six weeks of exhaustive experiment, had perfected a car machine that had been accepted by a large automobile manufacturing concern as standard equipment for its product.

TYPE DESCRIBED

Mr. Johnston then described the types of machine that will be presented by De Forest-Crosley during the 1933-34 season. Several machines were on display in the dining-room and those present inspected them thoroughly following the address.

Mr. Johnston read a telegram from W. T. Burnham, advertising manager for British Columbia, expressing the latter's regrets at not being able to be present at the dinner.

Prior to the dinner, Mr. Johnston said that the De Forest-Crosley corporation is a Canadian enterprise entirely. Headquarters and factory are in Toronto. The only connection with the American firm of the same name is the name for which the Canadian company pays royalties each year.

LAST RITES TODAY

The funeral of Mrs. Laura Elizabeth C. Brae will take place this afternoon, at 2 o'clock, at the Reform Episcopal Church, Rev. A. deB. Owen officiating. Interment will be in Royal Oak Burial Park.

W. O. Wallace To Manage Premier's Saanich Campaign

W. O. WALLACE, for many years president of the Saanich Conservative Association and a leading official in the National Federal Conservative Association, has been appointed campaign manager for Premier Tolmie in Saanich, the Premier announced yesterday.

Mr. Wallace is preparing an active campaign in the interests of the Premier, who will be a Unionist candidate in the riding which he has represented in the British Columbia Legislature since 1928.

SAYS CARTAGENA IS INTERESTING

Fred Spencer Entertains Kiwanis Club With Account of His Recent Trip

Fred Spencer, in a most entertaining address before the Kiwanis Club yesterday, told of a trip he recently made to Cuba and Colombia, with landings at various points en route. He had visited in the trip seven countries and remarked upon the facilities that were afforded in each of them for the easy entrance of visitors. The officials came aboard the ship promptly and entrance was made available without delay, he claimed.

The situation, the speaker said, was in strange contrast with the practice at Victoria. Here, returning to his own country, he had to wait fifteen minutes before the customs officials came aboard and then there was all sorts of trouble in getting cleared.

Victoria was seeking tourists; it was a beautiful city, and visits to scenes similar to the ones he described made one appreciative of the advantages of this city, but the unnecessary delay of visitors he protested very strongly. This should be remedied without delay, he claimed.

The speaker gave considerable time to facts about Cartagena, Colombia. This was a wonderful place to visit, he said, representing in many respects a very primitive life. Old forts dating back to the fifteenth century were to be found there. While men thought only of living there long enough to make money and get out. There were fine residences in part of the city, but in the old sections near the shore the situation was far from desirable.

Referring to Colon and other points on the trip, the speaker depicted the part which the sailors played with crowds of sailors and other visitors frequenting these resorts. A departmental store, up-to-date in every particular, in Colon, was referred to. This was owned and run entirely by negroes.

He—You look sweet enough to eat. She—I do eat. Where shall we go?

He—How stupid to scream like that over a little mouse. She—Fancy moaning like you do over a little piece of paper when you get a dressmaker's bill—She and Dr. Zolinger.

Passports—good Clothes... good Manners...
A Winning Smile
STRONG, white teeth are passport without being asked. But they are not good for a lifetime unless given the proper care.
Nor can you preserve the soundness and the brilliance of your teeth if you neglect your gums. For, if you fail to heed that little touch of "pink" you sometimes notice on your tooth brush, serious things may happen—gingivitis, Vincent's disease or even pyorrhea.
The soft foods you eat are to blame for "pink tooth brush". They rob your gums of needed exercise and stimulation.
Here is what to do. Brush your teeth with Ipana the regular way. Then rub a little extra Ipana into the gums. Leave it there so the sarsol, the tonic agent in Ipana, has a chance to do its work. A month of this and teeth are whiter, gums healthier. Keep it up and forget further worry about "pink tooth brush".

Confederation Life Association

Head Office Toronto

Since its foundation in 1871, the Confederation Life Association has accumulated this vast sum in pursuing the guiding principle of providing absolute Security and Stability to policyholders.

The Association's funds have been invested only in the most conservative securities. This conservative investment procedure has resulted in the building up of a strong financial institution—one of the strongest in the world.

A copy of a publication entitled "Summary of the Financial Position of the Confederation Life Association as at December 31st, 1932" may be obtained on application.

ROSH HASHANA STARTS TODAY

Jewish New Year and Yom Kippur, Day of Atonement, to Be Observed

At sunset tonight the Shofar, or great ram's horn, will be sounded at the synagogue, calling all Jewish worshippers to self-search and repentance as the Rosh Hashana, or Jewish New Year, is ushered in with proper and fit ceremony.

The New Year observance will be followed by Yom Kippur, the day of atonement, September 30, which calls forth the most solemn rituals of the whole year.

Services in observance of the New Year, when Jews seek atonement for their transgressions, will be held in the Temple Emanuel, corner of Blanshard Street and Pandora Avenue, at 8 o'clock tonight, 9 a.m. and 8 p.m., Thursday, and 9 a.m. and 8 p.m., Friday. Rabbi Marcus Berner will officiate.

THE ATONEMENT
Yom Kippur is observed in the home with due reverence. It takes more the form of a domestic observance, although services also are held in synagogues on the day of atonement.

For Jews sundown tonight will usher in the 5944th year.

Agricultural in origin, the feast has eventually come to be one of repentance, self-examination and reconciliation with God and man. At one time, when the Jews were an agricultural people, the date marked the beginning of the year, when the crops had been garnered and the fall sowings commenced. When Jews ceased to be farmers the festival took on a new significance and was designated as a season of remembrance of the creation of all things.

Jews are enjoined at this season to make a new start in life, after having been purged of the sins committed in the past year. Symbolic of this purification, Jews may be seen at sunset of the second day, standing near water and emptying their pockets of the crumbs they have accumulated. The underlying idea is that these things of the past, being cast into running water, are eventually carried out to sea.

LOGGER KILLED WHEN WORKING IN WOODS

DUNCAN, Sept. 19.—Another logging fatality occurred yesterday morning when Zinsaku Narabu was struck with a chokerhook when working for the Mayo Lumber Company. The victim of the accident was about forty years old and unmarried. An inquest will be held at the Whidden Funeral Parlors at 8 p.m. on Wednesday.

SERVICE TOMORROW

Funeral services will be held from the Sands Mortuary, Thursday afternoon, at 2 p.m. for the late Edward Cullen, Rev. Canon P. A. P. Chadwick will officiate, and the remains will be laid at rest in Royal Oak Burial Park.

Glimpse of Home Furniture Booth at Fair

The Exhibit of the Home Furniture Company, Shown All Last Week at the Provincial Exhibition at Willows Park, Attracted Widespread Attention. Three Fully Furnished Rooms Were Exhibited, Namely, Bedroom, Living-Room and Dining-Room, Tastefully Decorated.

THE HISTORY OF THE PRINCESS ROYAL
The Princess Royal, a bark of 120 tons, with a length of 120 feet and a beam of 30 feet, was constructed of oak and teak.

They Sailed the Seas and Founded a Great Industry
EIGHTY years ago, miners from the Old Land arrived on the Princess Royal to commence organized mining operations at Nanaimo.

It is historically recorded that these hardy old pioneers predicted that the Island mines would be amongst the greatest in the world, both in quality and quantity produced. How true has been their prophecy of one of British Columbia's greatest industries.

In eighty years over one hundred million tons of this coal have been used in all parts of the world, and Island coal has consistently held the banner of quality.

That is why shrewd British Columbia coal buyers insist on Island Coals rather than imported lignites. They know that it is an established fact that Island Coal gives thirty per cent. more heat at twenty per cent. less cost.

You, too, can save money on your coal bill this winter by insisting on Island Coal.

Remember, when you buy Vancouver Island Coal you are not only buying the most heat for less money, but you are keeping British Columbia

CABINET TO MEET TODAY

Continued from Page 1
 Sir John Simon, Foreign Secretary, out about his stay at Balmoral Castle in order to attend tomorrow's meeting.

OUTLINES PLAN
 PARIS, Sept. 19 (AP).—Joseph Paul-Boncour, French Foreign Minister, today outlined France's new disarmament plan to Norman H. Davis, United States ambassador at large, in a lengthy talk at the Quai d'Orsay.
 Thereafter the American representative outlined an outline of the French scheme for control of armaments, with an accompanying postponement of disarmament for five years; to the Washington Government.

Mr. Davis presented to Premier Edouard Daladier, President Roosevelt's oral message, in which the President was understood to have urged the necessity of disarmament. It was understood Mr. Davis had indicated the United States, while agreeing to the principle of control, was determined to abstain from sanctions. The French have been represented as anxious to provide for sanctions against any nation violating the disarmament agreement.
 The French plan seeks an agreement not to replace old arms, which would become useless during the five-year test period. In addition, it calls for the actual scrapping of effective armaments and transformation of the armies into militia at the end of the five years.

 consular advice, caused lights to be kept burning tonight within the State Department, as officials prepared for instant action if needed.

OMINOUS REPORTS
 Secretary Hull appeared grave as

Why stay RUN-DOWN?

Fruit-a-tives
 give new life

"The only thing that makes me miserable now is the thought that for years I struggled along like a run-down condition, when, if I had known about 'Fruit-a-tives' I would have been greatly benefited. Fruit-a-tives saved me from a life of misery. They really have done me the world of good."

FRED PERRY EASY WINNER

Defending Champion Scores Straight Set Victory in South—Lee Loses

LOS ANGELES, Sept. 19 (CP).—Harold Lee, captain of the English tennis team now touring the United States, fell before Lester Stiefen, of California, today in the third round of singles in the Pacific Southwest tennis championships. It was a hard-fought three-set battle and the scores were 8-10, 6-6, 6-0. Frederick J. Perry, defending champion, defeated Albert Lewis, of California, 6-2, 6-2. In the women's division Dorothy Round, of England, eliminated Mrs. Ethel Arnold, of Los Angeles, 7-5, 6-2.
 Don Turnbull, of Australia, continued in winning stride by defeating Charles Ols, California, 6-3, 4-6, 6-3, but his fellow-countryman, Adrian Quist, went down by 6-4, 6-2, to Jack Tidball, of Los Angeles. Ellsworth Vines, former United States champion, struggling to regain the heights, won easily from Elsie Itoh, of Japan, by 6-1, 6-4. John Van Ryn, Philadelphia, American Davis Cup player, made quick work of his third round opponent, defeating Frank Wilde, of England, 6-4, 6-1.

PLAN TO MOVE STOCK MARKET

Proposal to Quit New York Because of Taxes Gains Support

NEW YORK, Sept. 19 (AP).—A large section of the membership of the New York Stock Exchange, including Richard Whitney, president, and Allen L. Lindley, vice-president, today pledged their support to the movement for the establishment of a new exchange in New Jersey.
 Plans for transferring a considerable part of the exchange's business to a market on the west side of the Hudson River and beyond the reach of the transfer and profit taxes which the city proposes to levy on the brokers, assumed definite form with the organization of a committee composed of representatives of twelve leading exchange firms.

ENTHUSIASTIC RESPONSE
 The committee, of which Howard Froelick is chairman, announced through the stock exchange tonight that 634 members of the exchange had accepted the invitation to join the movement. He said their response had been "immediate and enthusiastic."

Froelick stated that organization of the New Jersey Exchange was progressing and a meeting of the committee on organization would be held tomorrow. He reported that a draft of a constitution and rules for the new exchange was being prepared and would be in form for submission to the committee in forty-eight hours.
LOCATION NOT DECIDED
 The question of location of the new exchange is undecided, according to the committee. Jersey City, Newark, and one or two other nearby Jersey municipalities have been engaging in a bidding contest for the privilege of providing a home for the new exchange.

MONTREAL POPULATION
 MONTREAL, Sept. 19 (CP).—Estimate of the population of the city of Montreal proper, contained in the 1933-34 edition of the Montreal city directory, is 1,162,320, as compared with an estimate of 1,160,183 last year.

EQUIPOISE TO RETIRE
 NEW YORK, Sept. 19 (AP).—C. V. Whitely's Equipoise, handicapped champion of the year, will be retired after the Havre de Grace Handicap, September 30, it was announced today.

Announcements
 A Woman's Family and Friends may love her as much if she is not beautiful, but they would feel a lot more pride in her if she were. Do you not want your husband and children to be proud of you? Is it not worth an effort—a sacrifice if necessary? Miss Hanman will help you—if you will seek her help. Call for booklet. Phone G 7642 583 Bayward Building.

Dr. G. R. Switzer will address an open meeting of the International Relations Club, on Friday, September 22, at 8 p.m., in the Y.M.C.A. on the subject "This Peace and War Issue." No admission charged.

There are 660 nuts in the jar in the window of The Victoria Book & Stationery Co. The nearest estimate is 662, by Mr. W. Dalby, care of Y.M.C.A. He wins the bicycle.

SPLIT SEEN IN TRADES COUNCIL

President May Be Attacked by Left Wingers on Question of Politics

Verbal fireworks are expected tonight at the meeting of the Trades and Labor Council, over the much-disputed question of politics.
 At the present time the council is split two ways over the matter, one wing contending that they should take no part in politics as a union, while the other wing is of the opinion that they should throw in their lot with the party which seems to offer the most hope to the trade union man.

According to current rumors, the latter group, led by V. R. Midgley, C.C.P. candidate representing what is termed the "Trade Union Group," intends to launch a concerted attack tonight upon Harry Owen, president of the Victoria and District Trades and Labor Council, who is bitterly opposed to the council having anything to do with any party.

QUAMICHAN RESIDENT DIES IN HOSPITAL

DUNCAN, Sept. 19.—The death occurred at the Duncan Hospital yesterday of Arthur John Rudkin, of Quamichan Lake. Mr. Rudkin was born in London in 1875. He was a Fellow of the Surveyors' Institute of London. Coming to Canada from Little Warley, Sussex, in 1912, he has resided at Quamichan Lake ever since. He is survived by four daughters, Mrs. G. F. Booth, Victoria; Mrs. J. H. Wilkinson, London; Mrs. R. Bateman and Mrs. B. F. Burrows, Duncan, and five grandchildren.

Funeral services will be held at St. Peter's Church, Quamichan, on Friday afternoon, Rev. Archdeacon Collison officiating.

Ex-President Hoover is understood to think that this business recovery only goes to prove that he could see further around the corner than anybody else.

City and District

Licence Issued—A British Columbia salmon saltery licence was issued to the Moresby Island Fisheries, Ltd., yesterday for a plant at Jedway, in the Queen Charlotte Islands.

Bond Sales—Another \$1,500 worth of bonds were sold over the city's treasury department counter yesterday, bringing the total sales and applications to \$62,500.

Start Discussions—The Kiwanis Club will open its discussion series of meetings on Thursday evening, meeting at the home of Rev. E. F. Church.

Will Meet Tuesday—The Real Estate Board will hold a luncheon meeting in Spencer's dining-room on Tuesday of next week instead of on Friday, which is the usual day of meeting.

To Speak Today—Walter Inward will address a mass meeting this afternoon at 2:30 o'clock in Central Park, weather permitting, on "The Facts About the City Relief Office." The public is cordially invited to attend.

Wins Electric Cleaner—Mrs. J. A. Sewell, 632 Skinner Street, is announced as the winner of the Royal Electric Cleaner, given away by the B. C. Electric Railway Co. in connection with its exhibit at the Provincial Exhibition.

Captures Third Prize—Jesse Pollock, of Victoria, took third prize in the sailors' hornpipe (under twelve years) class at the Highland dancing contest held at the Willows Park. This award was inadvertently announced at having gone to a Vancouver competitor.

Benefit Concert—Col. Brooke Stephenson, speaking before the Kiwanis Club yesterday, made an appeal for a good attendance at the benefit concert to be given for John Rowlands, Rugby player, who was injured in playing some time ago. The concert will be held on Friday.

Automobile Directors—Directors of Victoria Automobile Club will hold

a meeting this afternoon at 4:30 o'clock at the service bureau in the Crystal Garden building to consider the financial report as submitted by R. R. Webb, managing secretary.

Junior Chamber—A general membership meeting of the Junior Chamber of Commerce will be held in the reading-room of the Arcade Building tomorrow evening, commencing at 8 o'clock. As this will be the first meeting of the Fall and Winter season, a good attendance is requested.

Appeals for Vegetables—At a meeting of the Kiwanis Club yesterday Victor King made an appeal for members to assist in the supplying of the Sunshine Inn with vegetables that would stand storing for Winter use. Potatoes, onions, cabbage and carrots were requested, to be delivered at Maynard's Auction Room next week.

Playing in Vancouver—On Wednesday, October 4, members of the Kiwanis Club of this city will go to Vancouver to play a return match with club members in the Terminal City for the Heath Nicholson Trophy for golf. A large turn out of the members of the local organization is sought for that occasion.

Tree Petition—Residents on Linden Avenue, between Fort Street and Rockland Avenue, have petitioned the city to have every other tree removed from the boulevard in that section. The trees are thirty years old and spread their branches far out into the street. The matter was taken under advisement by the parks committee yesterday.

Is Satisfied—On his return to the city yesterday after visiting Southern Interior points in an inspection of relief administrations, Hon. W. M. Dennis declared that he was satisfied that every reasonable effort was being made to meet unemployment distress by relief. He was accompanied on the tour of municipal and unorganized districts by E. W. Griffiths, administrator of relief.

Refuses Camp—Herbert Glass, charged with vagrancy in the city police court yesterday, refused to go to the single men's camp for unemployed, "being a believer in the Lord, I want freedom and liberty," said the accused. Nowhere in God's word was it shown, he contended, that he should place himself under Government relief. Declaring he was physically all right, the accused said he was not going to camp. Thereupon, he was committed to jail by the magistrate for one month.

Committees Named—Two committees have been named by the Chamber of Commerce, one to consider a protest from the Vancouver Board of Trade concerning taxation and the discretionary powers granted to ministers of the Crown, and the other is one to deal with the early closing of the halibut fishing districts this season. Members of the taxation group are Major H. Culbert Holmes, R. H. B. Ker, H. G. Hinton, J. R. Scooby and W. H. M. Haldane. The fisheries committee consists of H. W. Davey, Duncan McBride, W. B. Wilson, Lincoln Smith and C. F. Goodrich.

A deer can run at the rate of fifty-five miles an hour.

Johnny Vergee, Giant Infielder recently operated upon for appendicitis, may be on hand for the world series after all. However, he'll get no closer to actual action than sitting on the bench in uniform.

"Did you see the mother's face when I said she looked as young as her daughter?"
 "No, I was watching the daughter's face."
 —Moustique, Charlierol.

MARINE, RAIL and AIR

Trust Company Is In Possession of P.C. Terminals, Ltd.

Plant Includes Cold Storage Facilities, Warehouses and Docks—Will Continue to Operate Under Management of Former Official

NEW WESTMINSTER, Sept. 19.—Acting on behalf of the holders of \$1,500,000 first mortgage 6 per cent bonds, the Montreal Trust Company today took possession of the assets of the Pacific Coast Terminals, Ltd. There will be no immediate change, if any, in the shipping firm's operations, it was announced. Valentine Quinn, managing director of the Pacific Coast Terminals, was retained as general manager of the company by the Montreal Trust.

In explaining the bondholders' move, Mr. Quinn made the following statement: "Owing to the depreciation of trade and the general depression, the company has been unable to meet the interest on its first mortgage bonds, and in accordance with the terms as set forth by the trustees, the bondholders have requested the Montreal Trust Company to take possession and control of the Pacific Coast Terminals."

The directors and creditors of the company are being notified accordingly.

ERECTED IN 1928

The terminals, including a cold storage plant, 1,500,000 cubic feet of space, warehouses and extensive docks, were erected in 1928 at a cost of \$2,125,000.

It is understood that a sum of \$97,000 is due the first mortgage bondholders in interest.

Royal Scot Will Visit Cities of Western Canada

MONTREAL, Sept. 18.—The Royal Scot, famous British train on exhibition in Chicago, which was the centre of interest in Montreal when it arrived last Spring in the fast freight liner Beaverdale, will enter the limelight soon again.

A cable from England states that T. C. Byron and C. O. Anderson, of the London, Midland & Scottish Railway, who had charge of the train during its tour in Montreal, are due to reach here Saturday in the Canadian Pacific liner Duchess of Bedford. Interviewed on their departure for England two months ago, the L.M.S. officials were due to return a few weeks before the departure of the crack London-to-Glasgow flyer on an exhibition tour of Western United States and Canada.

It is understood here that Western Canada, with the Royal Scot at Canadian Pacific Railway stations in Vancouver, Kamloops, Calgary, Moose Jaw, Regina and Winnipeg.

Vancouver Shipping

VANCOUVER, Sept. 19 (CP).—Ms. Queen City, of the Beaton Smith Line, is at New Westminster, loading lumber and 200 tons of bar metal, after having taken on some lumber at Chemainus. She will move to Vancouver tonight to complete her cargo of 2,000,000 feet of lumber and to load 1,000 tons of wheat and 200 tons of general for the Orient.

Ms. Saporeo is in port to Dingle.

SAILED SOUTH LAST EVENING

Travel to California Continues to Tax Capacity of Coast Ships

Docking shortly before 8 o'clock last evening from Seattle, the H. F. Alexander, of the Pacific Steamship Lines, cleared from Rihet Piers two hours later for San Francisco, her first port of call in California, with all her passenger accommodation taken. Already booked up heavily before leaving Seattle, the liner embarked a large number of inland and coastwise travelers here.

Among the passengers boarding the "H.F." here were Mr. and Mrs. W. E. Peters, Mrs. M. E. Kinloch, Miss G. Walker, Mrs. Gordon Ledingham, Gordon Ledingham, Janet Ledingham, Bernard Colley, Mr. and Mrs. D. A. Kennedy, Miss Dorothy Kennedy, Warming Kennedy, Mrs. E. Goerg, Mr. and Mrs. A. H. Barendt, F. Winterborne, Dr. Adolph W. Kosky, Marion C. Cooper, Miss Salford, Miss Duggan, and Mrs. D. A. McGinnis, J. F. Fogson, Miss O. F. Phelps and Miss Netta Lobban.

Others embarking here included Miss Elsie Pogson, H. Drummond-Hay, Mrs. R. Hill, Mrs. Mary J. Lang, Dr. and Mrs. Paines Parker, Mr. and Mrs. Charles Kaushner, Mr. and Mrs. E. J. Butler, Lyonel Sale, Mrs. M. Flammank, Mrs. W. Dyer, Captain E. Barker, U.S.N., and Mrs. Barker, and Mr. and Mrs. Beale.

MAY CALL ON CITY

The first mortgage bondholders may call upon the city to make good its guarantee amounting to \$21,000 a year for twenty years, however, the city's agreement with the company provides that if the interest is not paid by the company, the City Council has authority to cancel the company's fixed assessment on its property.

What action, if any, will be taken by the Consolidated Mining & Smelting Company of Canada, which controls the terminals' treasury stock, has not yet been decided.

It is stated that with a return to normal times, the terminals' every opportunity to meet its financial obligations in full.

Its export and import business is increasing rapidly and, through the medium of the Pacific Coast Growers' Association, the cold storage receipts are also stated to be on the up-grade.

Steamships Won Initial Contest With Rail Lines

WASHINGTON, Sept. 19 (AP).—Steamship companies operating through the Panama Canal today won an initial contest with transcontinental carriers when the Interstate Commerce Commission refused to suspend the first joint water-rail rate ever proposed between Pacific ports and the Mississippi Valley.

As a result, a freight rate of 76 cents per 100 pounds on canned goods becomes effective at midnight. It is the lowest charge ever imposed on canned goods through the Pacific Coast and Mississippi Valley through the Panama Canal.

Transcontinental lines filed a protest with the commission and gave notice that, effective October 1, their rate on canned goods would be reduced from 90 cents a hundred pounds to 80 cents.

NOTICE TO MARINERS

Mariners are advised that a red occulting, unwatched light has been established by the Vancouver Harbor Commissioners on a wooden beacon, painted red and white, situated on Berry Point, immediately north of the C.P.R. wharf.

The light is 40 degrees 17 minutes 44 seconds N.; longitude 122 degrees 59 minutes 12 seconds, Vancouver Harbor.

A. W. R. WILLIAMS, Agent, Department of Marine.

Bankruptcies in Canada Decrease

OTTAWA, Sept. 19 (CP).—A decrease in the number of assignments under the Bankruptcy and Winding-up Act was recorded in July compared with a year ago, while the liabilities of the assignors also showed a decrease, says a report issued today by the Dominion Bureau of Statistics.

Commercial failures numbered 142, as compared with 158 in June and 175 in July, 1932. The liabilities of the assignors, amounting to \$2,289,454 as compared with \$2,338,728 in June and \$2,988,840 in July, 1932.

Montreal Produce

MONTREAL, Sept. 19 (CP).—Butter and egg prices rose while other lines were unchanged on the Montreal Daily and Produce Market today. The butter market was generally quiet, with a few small lots of No. 1 grade in car lots or less, with the average quotation at 19 1/4 cents.

Graded shipments in car lots or less of Ontario eggs took a sharp rise, extras being quoted 25 cents a dozen, firsts 19 cents and seconds 14 to 15 cents.

The cheese market held steady at Monday's fractional gains. Ontario white and colored brought 11 to 11 1/4 cents a pound.

Money Markets

LONDON, Sept. 19 (AP).—Money, 1-4 per cent. Discount rates: Short bills, 3-8 per cent; three-month bills, 3-8 to 7-16 per cent.

AT NEW YORK
NEW YORK, Sept. 19 (AP).—Call money steady, 3-4 per cent all day.

Time loans steady, sixty days, 1-2 per cent; ninety days, 3-4 per cent; four months, 3-4 per cent; five months, 3-4 per cent; six months, 1 per cent.

Prime commercial paper, 11-14 per cent, and perhaps lower.

Bankers' acceptances unchanged.

Lumber Continues to Move in Considerable Volume

LOADING of lumber carriers continues to be the principal source of employment for workers on the local waterfront at the moment, and from present indications it would appear as if the tonnage crowd would be fairly busy until the middle of October at least, and perhaps longer.

Following the departure of the Goolistan for Port Alberni, the freighter, Aldington Court, arrived alongside Ogden Point Piers last evening to complete loading. The Winnipeg will get away for Mainland ports some time this evening after loading 1,300,000 feet for French ports.

Fixed for arrival at Ogden Point Piers, King Brothers, local shipping agents, have a number of ships due before the end of the month, and include the freighters, China Exporter, Langlecraig, Golden Cloud, Fukuro Maru, Woodin, Benvolio, and Fernbrook.

For early October loading, the firm also has five other ships posted on the blackboard in the Langley Street office.

Caused Some Controversy

Efforts of Designers and Builders to Produce Faster Airplanes Meets With General Approval

One of the most difficult problems which the aircraft operator today must decide is the extent of the public's demand for high speed. Recent events have shown, however, that the traveling public will always respond when it is offered an increase in speed and consequently there is a steadily increasing demand for high speed airplanes. An outstanding instance is provided by the Percival Gull.

This airplane, which is built under license by the Percival Company, has sprung into popularity with remarkable rapidity. It is only a short time since production of the Gull was begun on the Gull, yet already twenty-four machines have been sold and Gulls are now operating in India, Japan, Australia and France. The Gull is doing survey work for the Mackay Aerial Expedition into Central Australia. Mr. Mackay, who is financing the expedition, in a recent letter says that the Gull has been working with complete success at Hermansburg, which is situated 120 miles from the coast.

With the Napier Javelin engine, the Gull, with full load and a range of about 650 miles, cruises at 140 miles per hour and its top speed is 180 miles per hour, while the indicated landing speed is only forty-three miles per hour. The brakes and air brakes and wheel operated in safety from small size aerodromes. Operating costs are salient. The Napier engine using nine gallons of fuel per hour at 140 miles per hour.

CAPTAIN John Alexander McCullough, skipper of the Lyman H. Davis, has sailed on his last voyage. He died at Nanaimo, Ontario, in his sixty-sixth year. The Lyman H. Davis, above, was the cause of much controversy and protest from ship lovers when it was made known that the historic lake boat would be burned as a spectacle.

With the Napier Javelin engine, the Gull, with full load and a range of about 650 miles, cruises at 140 miles per hour and its top speed is 180 miles per hour, while the indicated landing speed is only forty-three miles per hour. The brakes and air brakes and wheel operated in safety from small size aerodromes. Operating costs are salient. The Napier engine using nine gallons of fuel per hour at 140 miles per hour.

What Today Means

"VIRGO"

If September 20 is your birthday, the best hours for you on this date are from 7:30 to 8:30 a.m. from 8 a.m. to 9 p.m. and from 9:30 to 10:30 p.m. The danger periods are from 9:50 to 11 a.m. from 4 to 4:45 p.m. and from 7 to 8 p.m.

People generally will be inclined to stretch the truth on this day; it will be difficult to ascertain what is fact and what is fiction. Do not place reliance on statements unless they are supported by evidence. If you have a problem of some sort that you wish to discuss, should find them in a receptive frame of mind and eager to follow your guidance.

The child born on this September 20 will be quick to seize any opportunity that comes his way. His generous nature will prompt him to share his possessions freely with those who have less than he. Will enjoy horseback riding and will be fond of animals. He will not doubt have many strange pets.

If September 20 is the date of your birth, you probably depend very greatly on those you have around you. You are a simple person in many ways, very trusting and with a heart as big as a mountain. You are very frank about your own affairs and perhaps a little too willing to talk to have their reactions. Many give you their confidences but only if you are not always as careful as you might be about revealing what you hear. There is, however, nothing malicious in this tendency to talk, simply a lack of foresight which leads you to ignore possible consequences. You will lose good friends in this way. You have a pretty good outlook on life and this enables you to really be of service to many who do not have the same equipment as you with which to solve their problems.

Born on September 20, you will undoubtedly have to do a lot of consistent and hard plugging to get the result you desire. Although you are a better than average mind, you will possibly encounter more obstacles in your path than does the average person. You will have many pleasant surprises, but few serious setbacks. You live for each day as it comes along, you do your best into everything that you do and you replace continually over the many good things that you have. A great love and admiration for either one or both of your parents will prove a driving force all through your life.

PUBLIC DEMANDS GREATER SPEEDS

Efforts of Designers and Builders to Produce Faster Airplanes Meets With General Approval

One of the most difficult problems which the aircraft operator today must decide is the extent of the public's demand for high speed. Recent events have shown, however, that the traveling public will always respond when it is offered an increase in speed and consequently there is a steadily increasing demand for high speed airplanes. An outstanding instance is provided by the Percival Gull.

This airplane, which is built under license by the Percival Company, has sprung into popularity with remarkable rapidity. It is only a short time since production of the Gull was begun on the Gull, yet already twenty-four machines have been sold and Gulls are now operating in India, Japan, Australia and France. The Gull is doing survey work for the Mackay Aerial Expedition into Central Australia. Mr. Mackay, who is financing the expedition, in a recent letter says that the Gull has been working with complete success at Hermansburg, which is situated 120 miles from the coast.

With the Napier Javelin engine, the Gull, with full load and a range of about 650 miles, cruises at 140 miles per hour and its top speed is 180 miles per hour, while the indicated landing speed is only forty-three miles per hour. The brakes and air brakes and wheel operated in safety from small size aerodromes. Operating costs are salient. The Napier engine using nine gallons of fuel per hour at 140 miles per hour.

What Today Means

"VIRGO"

If September 20 is your birthday, the best hours for you on this date are from 7:30 to 8:30 a.m. from 8 a.m. to 9 p.m. and from 9:30 to 10:30 p.m. The danger periods are from 9:50 to 11 a.m. from 4 to 4:45 p.m. and from 7 to 8 p.m.

People generally will be inclined to stretch the truth on this day; it will be difficult to ascertain what is fact and what is fiction. Do not place reliance on statements unless they are supported by evidence. If you have a problem of some sort that you wish to discuss, should find them in a receptive frame of mind and eager to follow your guidance.

The child born on this September 20 will be quick to seize any opportunity that comes his way. His generous nature will prompt him to share his possessions freely with those who have less than he. Will enjoy horseback riding and will be fond of animals. He will not doubt have many strange pets.

If September 20 is the date of your birth, you probably depend very greatly on those you have around you. You are a simple person in many ways, very trusting and with a heart as big as a mountain. You are very frank about your own affairs and perhaps a little too willing to talk to have their reactions. Many give you their confidences but only if you are not always as careful as you might be about revealing what you hear. There is, however, nothing malicious in this tendency to talk, simply a lack of foresight which leads you to ignore possible consequences. You will lose good friends in this way. You have a pretty good outlook on life and this enables you to really be of service to many who do not have the same equipment as you with which to solve their problems.

Born on September 20, you will undoubtedly have to do a lot of consistent and hard plugging to get the result you desire. Although you are a better than average mind, you will possibly encounter more obstacles in your path than does the average person. You will have many pleasant surprises, but few serious setbacks. You live for each day as it comes along, you do your best into everything that you do and you replace continually over the many good things that you have. A great love and admiration for either one or both of your parents will prove a driving force all through your life.

At the Theatres

CAPITOL "Tugboat Annie," starring Marie Dressler and Wallace Berry, at the Capitol Theatre this week, combines pathos and comedy in a tale of tugboat work on Puget Sound. Thrilling scenes of storm and stress outline the story, while the cast includes Robert Young and Maureen O'Sullivan, who take the part of the young lovers.

EMPIRE It may interest one to know that Anne Grey, the heroine in "One Precious Year," now at the Empire Theatre, has a high-powered car named "The Black Beauty." While she was making this Paramount picture it was a not uncommon sight to see her come dashing down the Elstree streets at sixty miles per hour. Luckily the inhabitants of Elstree are quick movers!

COLUMBIA Peggy Hopkins Joyce, Theatre W. C. Fields, Stuart Erwin and Sari Maritza supply the humorous romantic interest in Paramount's 1933 super-national House, now at the Columbia Theatre. Also on the same bill is Mac West, in "She Done Him Wrong."

PLAYHOUSE Constance Bennett, who may be decided a hit playing the role of an actress in "What Price Hollywood?" throws the spotlight

AMUSEMENTS

On the Screen
Capitol—Marie Dressler in "Tugboat Annie."
Columbia—"International House," starring W. C. Fields.
Dominion—Robert Montgomery in "Another Language."
Empire—"One Precious Year," starring Owen Nares.
Playhouse—Constance Bennett in "Rockabye."

on the stage in her latest RKO-Pathe picture, "Rockabye," now showing at the Playhouse Theatre. She again plays the role of an actress—a vibrant, worldly creature of beauty who longs for the tender caress of baby hands.

DOMINION Four members of the original stage company of the film version of "Another Language," which is now at the Dominion Theatre, with Helen Hayes and Robert Montgomery co-starring by Metro-Goldwyn-Mayer. They are John Beal, who plays the juvenile role of Jerry; Margaret Hamilton, Irene Castelli and Hal Dawson. They created the characterizations in the famous Rose Frankel play that ran for more than a year on Broadway.

Fine Programme For "Let's Go"

Ronald Smith, well-known Victoria entertainer, orchestra leader and radio performer, brings his piano "Cuthbert" and a "stogie" to the fore as one of the features of the musical revue, "Let's Go," to be presented Friday, at the Royal Victoria Theatre, at 8:30 p.m.

Ronald's programme will be impromptu and anything may happen during the time he is on the stage. The Victoria Little Theatre Association have arranged to present a one-act farce, "The Pol. Roller," with their leading performers having roles.

Dances of all types, ranging from the latest Broadway steps to the most colorful and beautiful of ballets, will be presented by the Russian Ballet School of Dancing, Florence Clough's Dancing Academy, Violet Powkes' Studio of the Dance, and individual artists.

Another feature of the two-and-one-half-hour performance, given in aid of Johnny Rowlands, is the nautical fantasia, "Voyage in a Troopship," presented by Lieutenant James M. Miller and the Canadian Scottish Regiment Band.

Planning to Ship Gold Ore by End Of Present Month

Conrad Wolfe, well-known British Columbia mining man, was in Victoria yesterday preparing to leave for the mine properties at Zabellos River to carry on extensive development for the Zabellos River Mining Company, of which he is the president and general manager.

Mr. Wolfe is taking with him an additional ten men to the location on the West Coast of Vancouver Island. He says that development has so far advanced that the company has every prospect of shipping gold ore by the end of the present month.

Mr. Wolfe stated that the Zabellos River property is in the area that Mr. Cunningham referred to in his report to the Government when he said that the Zabellos River Valley was the most likely place for prospectors to locate gold and would most likely develop into a large mining district in the future. Mr. Wolfe says he is confident this will prove to be the case.

Polish Balloonists Safe in Quebec

THE two intrepid Polish balloonists who started from Chicago in the Gordon Bennett international balloon race, came to a landing in the Quebec bush and trudged ninety miles through rough country with only a pocket compass to guide them into the settlement of Lemieux. At the left is seen Capt. Franciszek Heynik at the spot where the adventurers first came across the railway line which told them they were near civilization. With their balloon hung up in a tree in the Laurentian woods, they staggered into Lemieux five days after their landing. The photo at the left was taken by Lieut. Z. Burzynski. The two balloonists are shown at the right as they arrived in Quebec City.

WHEN WORLDS COLLIDE

By EDWIN BALMER & PHILIP WYLLIE

CHAPTER XV

From the hysterical white glare of the Bronson bodies, Eve and Tony were taken into a mighty chamber which rose seemingly to the sky itself, where the brilliance was even greater. A hundred things inside that chamber might have attracted their attention—its flood-lighting system, or the tremendous bracing of its metal walls; but their eyes were only for the object in its centre. The Ark on that late July evening—the focal point, the dream and hope of all those whom Hendron had gathered together—stood upright on a gigantic concrete block in a cradle of steel beams. Its length was 135 feet. It was 62 feet in diameter, and its shape was cylindrical. Streamlining was unnecessary for travel in the outer reaches of space, where there was no set resistance. The metal which composed it was a special alloy eighteen inches in thickness, electro-plated on the outside with an alloy which shone like chromium.

After Tony had looked at it for a long time, he said, "It is by far the most spectacular object mankind has ever achieved."

Hendron glanced at him and continued his exposition. "A second shell, much smaller, goes inside; and between the inner shell and its outer guard are several layers of insulation material. Inside the shell will be engines which generate the current, which in turn releases the blast of atomic energy, store chambers for everything to be carried, the mechanisms of control, the aeration plant, the heating units and the quarters for passengers."

Tony tore his eyes from the sight. "How many will she carry?" he asked quietly.

Hendron hesitated; then he said, "For a trip of the duration I contemplate, she would be able to take about one hundred people."

"Tony's voice was still quieter. 'Then you have nine hundred idealists in your camp here?'"

The older man smiled. "Unless I am greatly mistaken, I have a thousand."

"They all know about the ship?"

"Something about it. Nearly half of them have been working on it, or on apparatus connected with it."

"You pay no wages?"

"I've offered wages. In most cases they've been refused. I have more than three million dollars in gold available here for expenses encountered in dealing with people who

dated the great plain of China. It descended from the Arctic regions and removed much of France, England and Germany, all of Holland and the great Soviet Empire, from the last of nations. Arctic water hundreds of feet deep flowed into the Caspian Sea and hurried the last of its august inertia upon the Caucasus.

Western Asia and Arabia, southern India, Africa and much of Australia remained dry land.

More than half the population of the world died in the tides that rose and subsided during the proximity of the Bronson bodies. But those who by design or through accident found themselves on land that remained dry were not necessarily spared.

He sat down on a large stone.

Then went inside, then walked over the gleaming ground to the top of the Bronson bodies. Eve and Tony looked on the northern side like a university campus, and on the southern side like the heart of a manufacturing district. All around it stretched the Michigan wilderness. The ground had been chosen partly because of the age and firmness of its geological base, and partly because of its isolation.

The hot night wind blew with increasing violence, and the double shadows, one sharp and one faint, which were cast by all things in the light of the Bronson bodies, were abruptly obliterated by the passage of a dark cloud.

Tony's mind ran unevenly and irresolutely. "All right people," he thought, "these brilliant temperamental men and women, have subsided and made themselves like soldiers in Hendron's service—amazing man. . . . Only a hundred people."

Fears assailed him: "Suppose they don't complete the Ark successfully, and she never leaves the ground? Then all these people would have given their lives for nothing."

Suppose it leaves the earth and falls—falls back for hundreds of miles, gaining speed all the way, so that when it hits the atmosphere it would turn red-hot and burn itself up just like a meteor.

Tony thought of the tides that would rise that night and on following nights; and faintly, like the palpitation of a steamer's deck, the earth shook beneath his feet as if in answer to his meditation. And Tony realized that the heart of the earth was straining toward its celestial companions.

On the night of the twenty-fifth, tides unprecedented in the world's history swept every season. There were earthquakes of varying magnitude all over the world. In the day that followed, volcanoes opened up, and islands sank beneath the sea; and on the night of the twenty-sixth the greater of the Bronson bodies came within its minimum distance from the earth on this, their first approach.

No complete record was ever made of the devastation. Eliot James, who made some tabulation of it in the succeeding months, could never believe all that he saw and heard, but it must have been true.

The eastern coast of the United States was a tidal wave seven hundred and fifty feet in height, which came in from the sea in relentless terraces and inundated the palachians. Its seaward rush destroyed every building, every hotel, every skyscraper, every city, from Bangor in Maine to Key West in Florida. The Gulf of Mexico, rolled up the Mississippi Valley.

It roared around South America, turning the Amazon Basin into a vast inland sea which stretched from what had been the east coast to the Andes Mountains on the west. The speed of this tide was beyond calculation.

Every river became a channel for it. It spilled over Asia. It inundated

the streets of their destroyed cities. Live steam, blown with the violence of a hurricane, scalded populous centres and barren steppes impartially. From a sky that had hitherto deluged mankind only with rain, snow and hail, fell now burning torrents and red-hot dust. The very earth itself flowed in its rotation, sped up again, sucked and dragged through space at the caprice of the bodies in the sky above. It became girdled in smoke

and steam, and blasts of hot gas; and upon it as Bronson Alpha and Beta drew away, there fell torrential rains which hewed down right land to the bare rock, which cooled the issue from the earth to vast metallic oceans, and which were accompanied by lightnings that furnished the infernal scenery with incessant illumination, and by thunder which blended undetectably with the terrestrial din.

Agitated Caller—I want something to quieten my nerves."

Thank You, Victoria!

To the many thousands of people who attended our "At Home" on Monday evening the management and staff at "The Bay" say "Thank You." It was a wonderful response and we appreciate most heartily the complimentary and flattering comments heard on all sides concerning our store, its facilities and the entertainment provided for our guests.

May we take this opportunity to thank, too, all those who contributed to the success of the evening—to the Band of the 5th (B.C.) Coast Brigade Artillery, the Victoria Male Voice Choir, the Imperial Quartette, the Clef Club Orchestra, the Florence Clough School of Dancing, the Chris Wade Trio, the Police and Fire Departments for their invaluable help in regulating the huge crowds, and the many other individuals and firms who helped to make the occasion such an outstanding success.

Again We Say--Thank You!

3 DAYS ONLY

NEW YORK GIANTS CLINCH NATIONAL BALL FLAG

New Major League Mark Established By Terry's Squad

Capture Thirteenth Pennant Despite 12-3 Setback by Cardinals—Pirates Split With Phillies to Lose Last Chance of Winning Out—Yankees Prolong American Race

NEW YORK, Sept. 19 (AP).—New York Giants clinched their thirteenth National League pennant today, establishing a new major league record, as Philadelphia defeated Pittsburgh 3-2 in the second game of a double-header, and eliminated the last team having a mathematical chance of beating the New Yorkers. The Giants previously shared record honors with Chicago Cubs, each with twelve pennants.

Today's defeat was Pittsburgh's sixtieth of the season against eighty-two victories, including a 2-1 triumph in the first half of the bargain bill. If the Giants lose all the rest of their games, ten in all, including today's game at St. Louis, they still will end the season one percentage point higher than the Pirates, who have seven games left.

The news of the Pirates' defeat, posted on the score board when the Giants were at bat in the second inning, after the Cards had pounded Hal Schumacher for a 4-0 lead in the first inning. From then on the Giants took things easy. Immediately Manager Bill Terry called in a new battery, Glenn Spencer and Paul Richards, and at the finish, John "Blondy" Ryan, the shortstop, was the only regular on the field. There was no available substitute for him.

R. H. E.
New York 3 10 1
St. Louis 2 7 0
Batteries—Schumacher, Spencer; Clark and Mancuso; Richards; Walker and O'Farrell.

Bucs Lose Chance
PITTSBURGH, Sept. 19 (AP).—Pittsburgh Pirates ended their 1933 National League pennant chase today, when they fell before the tantalizing slants of Phil Collins in the second game of a double-header with the seventh-place Phillies, 3-2. Their ace hurler, Larry French, had won his eighteenth victory in the opener, 2-1.

First game: R. H. E.
Philadelphia 1 8 0
Pittsburgh 2 7 0
Batteries—Grabowski and Davis; French and Grace.

Second game: R. H. E.
Philadelphia 3 12 0
Pittsburgh 2 8 0
Batteries—Collins and Davis; Todd; Smith and Padden.

Braves Blank Reds
CINCINNATI, Sept. 19 (AP).—Refreshed after an hour's wait for a heavy rain to cease, Boston's Braves went back to play on sawdust and a puddle-filled field today to defeat Cincinnati Reds, 3-0, in the Braves' last appearance here this season.

R. H. E.
Boston 0 4 1
Cincinnati 0 4 1
Batteries—Brandt and Hogan; Frey, Kolp and Lombardi.

Dodgers Troupe Cubs
CHICAGO, Sept. 19 (AP).—Brooklyn Dodgers made merry at the expense of three Chicago Cubs' leading pitchers today, and won the final clash of the year between the teams, 12-3. The Dodgers scored three runs off Lon Warneke in the first, and drove him out in the fifth.

R. H. E.
Brooklyn 12 16 2
Chicago 3 10 1
Batteries—Bennett and Lopez; Outen; Warneke, Tinning, Root and Hartnett, Phelps.

AMERICAN LEAGUE
NEW YORK, Sept. 19 (AP).—New York Yankees stretched out the American League pennant race for at least one day more, as they overcame Chicago White Sox in both games of a double-header, 10-1 and 10-3. The Yankees piled up seventeen hits in each game, including Lou Gehrig's thirtieth homer, and circuit blows by Joe Sewell and Hildie Winder in the opener. Gehrig continued his slugging in the afterpiece, driving in five runs with a triple and two singles. George Thibault held the Sox to four hits in the first clash, to ring up his fifth straight victory for the Yanks.

First game: R. H. E.
Chicago 1 4 0
New York 10 17 0

BILL TERRY

NEW YORK, Sept. 19 (AP).—Two vicious home runs by Estel Crabtree and Ray Pepper, and Jim Lindsey's excellent relief hurling set down Buffalo Bisons here today, 6-3, and gave Rochester Red Wings a 2-1 advantage in the final play-off series for the International League championship.

More than 4,000 fans saw the two clubs battle 16 2-3 for four innings and then saw Pepper smack his circuit blow over the left field fence off John Wilson, with Crabtree on base to break the deadlock.

Buffalo could find but two safe hits in their bat rack off the offerings of Lindsey in six and two-thirds innings. He retired eleven men in order.

Crabtree hit his homer in the first inning off Bill Gould after Carey had beat out a slow roller to Brown.

The clubs now will move to Buffalo to finish the series, in night games, starting tomorrow.

R. H. E.
Buffalo 3 7 0
Rochester 6 12 1
Batteries—Gould, Wilson and Crouse; Henry, Lindsey and Florence.

COLUMBUS WINS HONORS
MINNEAPOLIS, Minn., Sept. 19 (AP).—A relief pitcher who could hit as well as hurl gave Columbus the championship in the American Association play-off today.

The Red Birds defeated Minneapolis 14-11 in ten innings, marked by thirty-two hits, including eight home runs, off nine pitchers to make the championship series four games to two.

The versatile pitcher was Ralph Judd, who relieved Lefty Hulse in the ninth with the score tied, the bases full and one out. He quickly retired the side and then, in the tenth, hit a long homer with two out and two on. The big right-hander was again too good for the locals in their half of the game.

Squeezing them in order and fanning the last man, a pinch hitter.

Columbus, which finished the regular playing season fifteen and a half games ahead of the field, qualified by the play-off victory to engage the International League title holders in the junior world series, meeting either Buffalo or Rochester.

R. H. E.
Columbus 14 18 4
Minneapolis 11 14 0
Batteries—Hulse, Dean, Hulse, Judd and Delaney; Murray, Hilcher, Tauscher, Petty, Holclaw and Glenn.

SPENCER'S TO FACE DOCKERS

Departmental Eleven and Esquimalt to Play at New Park Today

Official opening of the new Bullen Park will take place this afternoon at 4 o'clock, when an exhibition football fixture, between Spencer's squad, of the Wednesday Football League, and Esquimalt's entry in the Pacific Coast League, will be the highlight of the programme arranged.

The park, situated near the Hillcrest Tennis Club courts, was completed recently and is ready for soccer. The playing field is as level as a billiard table and should be a great boost to the game in Esquimalt.

The opening ceremony will actually take place at 2:30 o'clock, when the members of the council and Reeve Albert Head will be present. A programme of track events is also scheduled and the soccer game will commence at 4 o'clock.

Spencer's will take a strong team out to the dockyard village and hope to give the Coast Leaguers a battle for their money. With the addition of Percy Shrimpton, veteran net minder, who guarded the upstarts for Hudson's Bay for so many years, Spencer's will be greatly strengthened on the back division. The rest of the squad follows: McMillan, Cann, Les Bradley, Dick Bradley, Jones, Brown, Preston, Wilson, Luxton and Reid.

Vancouver After Vines and Perry For Exhibition

VANCOUVER, Sept. 19.—Hoping to have Fred Perry, British Davis Cup hero and winner of the American championship, visit Vancouver September 25 for an exhibition match with Ellsworth Vines or another ranking player, E. J. H. Cardinal, secretary of the Pacific Northwest Tennis Association, has wired South, endeavoring to make suitable arrangements.

Perry is scheduled to sail for an Australian tour September 27, following the Pacific Coast championships in Los Angeles. Cardinal's plan is to send Perry South by plane following his appearance here, in order that he can make connections with his boat.

CELTIC DEFEATS COWDENBEATH 7-0 IN SCOTTISH LOOP

GLASGOW, Sept. 19 (CP).—Celtic defeated Cowdenbeath, 7-0, in a First Division Scottish League soccer game today.

Agriculture is the chief industry of the Turks, produce being tobacco, which goes to almost all world markets; cereals, cotton, figs, nuts and fruits.

ROCHESTER TAKES LEAD IN SERIES

Homers Give Red Wings 6-3 Win Over Buffalo—Columbia Wins Pennant

ROCHESTER, N.Y., Sept. 19 (AP).—Two vicious home runs by Estel Crabtree and Ray Pepper, and Jim Lindsey's excellent relief hurling set down Buffalo Bisons here today, 6-3, and gave Rochester Red Wings a 2-1 advantage in the final play-off series for the International League championship.

More than 4,000 fans saw the two clubs battle 16 2-3 for four innings and then saw Pepper smack his circuit blow over the left field fence off John Wilson, with Crabtree on base to break the deadlock.

Buffalo could find but two safe hits in their bat rack off the offerings of Lindsey in six and two-thirds innings. He retired eleven men in order.

Crabtree hit his homer in the first inning off Bill Gould after Carey had beat out a slow roller to Brown.

The clubs now will move to Buffalo to finish the series, in night games, starting tomorrow.

R. H. E.
Buffalo 3 7 0
Rochester 6 12 1
Batteries—Gould, Wilson and Crouse; Henry, Lindsey and Florence.

COLUMBUS WINS HONORS
MINNEAPOLIS, Minn., Sept. 19 (AP).—A relief pitcher who could hit as well as hurl gave Columbus the championship in the American Association play-off today.

The Red Birds defeated Minneapolis 14-11 in ten innings, marked by thirty-two hits, including eight home runs, off nine pitchers to make the championship series four games to two.

The versatile pitcher was Ralph Judd, who relieved Lefty Hulse in the ninth with the score tied, the bases full and one out. He quickly retired the side and then, in the tenth, hit a long homer with two out and two on. The big right-hander was again too good for the locals in their half of the game.

Squeezing them in order and fanning the last man, a pinch hitter.

Columbus, which finished the regular playing season fifteen and a half games ahead of the field, qualified by the play-off victory to engage the International League title holders in the junior world series, meeting either Buffalo or Rochester.

R. H. E.
Columbus 14 18 4
Minneapolis 11 14 0
Batteries—Hulse, Dean, Hulse, Judd and Delaney; Murray, Hilcher, Tauscher, Petty, Holclaw and Glenn.

SPENCER'S TO FACE DOCKERS
Departmental Eleven and Esquimalt to Play at New Park Today

Official opening of the new Bullen Park will take place this afternoon at 4 o'clock, when an exhibition football fixture, between Spencer's squad, of the Wednesday Football League, and Esquimalt's entry in the Pacific Coast League, will be the highlight of the programme arranged.

The park, situated near the Hillcrest Tennis Club courts, was completed recently and is ready for soccer. The playing field is as level as a billiard table and should be a great boost to the game in Esquimalt.

The opening ceremony will actually take place at 2:30 o'clock, when the members of the council and Reeve Albert Head will be present. A programme of track events is also scheduled and the soccer game will commence at 4 o'clock.

Spencer's will take a strong team out to the dockyard village and hope to give the Coast Leaguers a battle for their money. With the addition of Percy Shrimpton, veteran net minder, who guarded the upstarts for Hudson's Bay for so many years, Spencer's will be greatly strengthened on the back division. The rest of the squad follows: McMillan, Cann, Les Bradley, Dick Bradley, Jones, Brown, Preston, Wilson, Luxton and Reid.

Cowboy Bites the Dust

JUST a little "horseplay" at the "Oklahoma Stampede" held at Pasadena, California, on Labor Day. The camera caught one of the broncho busters as he was tossed over the head of his frolicsome steed in record time. A moment later he "bit the dust."

LONDON M.P.'S LACK COHESION

Empire Capital's 62 Members Seldom Get Together on Policy

LONDON (CP).—It is an old story that one may live in London for twenty years without learning the name of his next door neighbor. Not merely in local social matters, but also in national politics is this lack of cohesion in London life apparent. Attention to it has been directed once more through the death of Sir Kenyon Vaughan, a Morgan member of Parliament for the London division of East Fulham.

Taken altogether London has a reputation in Parliament of sixty-two members, but it is at the rarest intervals that they ever combine together to promote or defend the interests of London as a whole. In this they differ vastly from the compact bodies of Scottish and Welsh members, who are always ready to present a solid front on behalf of the common interest of the area which they jointly represent. Possibly London is so well served by its high administrative officers that there is no need for members of Parliament to unite on its behalf.

It is curious, though, that no member of Parliament of the present day is closely identified with the great city. Twenty years ago the name of John Burns, the first Labor Member to receive ministerial office, was invariably associated with Battersea. Will Crooks, likewise, was as closely identified with Poplar. At the other end of the scale there was Sir Frederick (now Lord) Banbury, whom everybody knew possessed the distinction of being one of the two representatives of the City of London proper.

LONG JOURNEY TO CANADA UNFOLDING
LONDON (BUP).—On board the Cunard liner Aurania, which arrived at Plymouth on Tuesday from Canada, was a Polish rabbi who had made a 6,000-mile voyage in vain.

He was Rabbi Herako Rybak, aged forty-seven, and he left London three weeks ago to continue in Canada a religious mission he had conducted in England on behalf of the Jewish seminaries in Poland.

On arrival at Montreal, however, he was refused permission to land on the grounds that he was likely to become a public charge.

He produced a letter of introduction from the Chief Rabbi in London, Dr. Herz, but was instructed to return in the ship in which he arrived.

Expect Lindbergh To Visit Russia

STOCKHOLM, Sept. 19 (AP).—Colonel and Mrs. Charles Lindbergh rested at Karlskrona naval station tonight, with the plane in which they crossed the North Atlantic completely fueled and ready to go at the twist of the propeller.

LENINGRAD, U.S.S.R., Sept. 19 (AP).—Colonel Charles A. Lindbergh and his wife are expected to fly here from Sweden, tomorrow, to confer with Soviet air officials concerning the northern aviation route.

FOUR-CORNERED RACE IN ATLIN ELECTION

PRINCE RUPERT, Sept. 19 (CP).—W. Fairmer, Alice Arm merchant, who was the Conservative candidate for Atlin in the last Provincial election, has decided to enter the forthcoming contest as an independent candidate. He makes the fourth candidate in the field, the others being W. J. Asselstone, Liberal; T. J. Shenton, Co-operative Commonwealth Federation, and H. W. M. Rolston, Independent.

It seems that with American multi-millionaires nothing is certain except death and the dodging of taxes.

Youth Misses Chance to Join Connie Mack's Nine

Mother and Father Rebel Against Idea of 18-Year-Old Son Joining the Majors—Want Him to Become School Teacher

By DON BARNHART
Central Press Staff Correspondent
MILLVILLE, N.J.—Because his mother rebelled at the thought of having a big league pitcher in the family, Adam Lloyd, Jr., is to be a manual training teacher when he grows up.

The youngster, who is eighteen years old, weighs 200 pounds and stands almost six feet tall, has reached the decision because his mother, Mrs. Oella Lloyd, forbids him to join the Philadelphia Athletics.

Just before the Mackmen left on their last swing around the western circuit of the American League, Connie Mack, manager of the A's, told him to report in September to spend the remainder of the season with the big league club. At the end of that time a contract would likely be forthcoming. Adam was sold, and he would go South with the Mackmen next Spring.

Adam's mother thought the matter over. She and her husband operate a small grocery on Vine Street, Millville. Neither were ever blessed with fortune. A good big league job means good big money.

To help the family financially, Adam sells ice cream from a truck through the town.

Mrs. Lloyd talked it over with her husband. Having Adam home with them would be an asset. Away, he was lost entirely. He still had two more years of high school to finish and perhaps some normal school education was required before he could qualify as a teacher of manual training.

"Adam, you're not going to join the Philadelphia team," was the final decision of Mrs. Lloyd. "You're going to stay right here in Millville and finish your schooling. Your father and I have worked hard to get you an education."

"This baseball idea," concluded Mrs. Lloyd, "is a lot of foolishness for a boy as young as you. Besides, you're bashful, not used to being away from home for long and the big city might teach you bad habits. No, sir, you're not going into baseball now."

And that settled Adam and the Athletics.

Evidently wishing to settle the controversy that ensued in the newspapers, Manager Mack declared later that he had not intended to sign the youngster, but merely give him some valuable experience at the hands of Pitchers George Walberg and Bob Grove.

But Floyd (Chalky) Gurn, of Millville, one-time left-handed pitcher with the New York Highlanders, tells a different story.

"Connie Mack was impressed with the youngster's fast ball," says Gurn. "Adam, who is a left-hander, looks like Grove. He was thrilled with his athletic possibilities."

BOB QUINN JOINS BROOKLYN DODGERS

NEW YORK, Sept. 19 (AP).—Judge Steve McKeever, president of the Brooklyn Dodgers, today announced that Bob Quinn, former pitcher of Boston Red Sox, of the American League, would succeed David Driscoll as business manager of the Dodgers. Driscoll announced his resignation today.

It is said of a Chicago doctor who is an ardent prohibitionist that he weighs more than eighteen stone. He must be one of the largest dry docs in America.

Security Prices Mixed in Trend At Wall Street

NEW YORK, Sept. 19 (AP)—Stocks stumbled into a heavy selling today, but a rally by the currently popular metals came to the rescue, and the general list closed with a small average net gain.

American Smelting, U.S. Smelting, Dome, St. Joseph Lead, International Silver, Anaconda, Kennecott and Cerrito de Pasco improved 1 to 4. Homestake, after tumbling 20, cut its loss to 3. Texas Gulf Sulphur, active, closed up 5, and Freeport Texas had a 3-point rise, the former reaching a new high.

National Biscuit, Cass, and Seaboard Oil gained a point or more net. Pacific swung both ways, net falls converting a 2-point loss into an advance of similar size.

U.S. Steel reduced a loss of nearly 2 to a minor fraction, but the preferred was heavy.

Inflationary clouds hovered over the bond market today, and prices of prime investment, as well as secondary issues, declined sharply in active trading.

Carriers lost 1 to more than 4 points included some bonds of Allegheny Corporation, Santa Fe, Baltimore & Ohio, Chesapeake & Ohio, St. Paul, Chicago & Northwestern.

Among utilities, of 1 to 2 or more, were loans of American Telephone, American and Foreign Power, Postal Telegraph and Western Union.

Foreign obligations were irregular. Some issues of countries still on the gold standard edged up to new highs, but losses of 1 to 3 or more were suffered by issues of Argentina, Germany, Japan, Austria, Denmark and Finland.

PROFIT TAKING REDUCES GAINS

Bralorne and Pioneer Continue Firm at Vancouver —Dome Golds Easier

VANCOUVER, Sept. 19 (CP)—After a fairly heavy trading session during the morning, activity died off in the late session and profit-taking cut down gains generally at the close of the exchange today.

Bralorne and Pioneer both continued firm, the former after holding around its all-time high mark of 13.00 closing at 12.85, up 15 from the previous close. Pioneer was unchanged at 13.00. Pend Oreille jumped 1 point to 12.75, while Big Nickel gained 4 to 22.

Cariboo eased 15 points to 4.30, while Hens and Meridian were each off 1 point to 1.40 and 1.25.

Oils were mixed. C. & E. Corporation lost 1 to 1.40, while Doherty was up 7 to 67 and Eastern was up around a point at 41-2.

WHEAT PRICES GAIN SLIGHTLY

Sharp Upturn at Chicago Brings Advance at Winnipeg Market

WINNIPEG, Sept. 19 (CP)—A sharp upturn at Chicago late in the day brought renewal of buying on the Winnipeg Grain Exchange today, and wheat prices, after idling at the low points for some time, advanced to close 1-4 higher to 5-5 cents lower than yesterday's close.

Operations were quite active at the start despite a disappointing export business, but dulled near mid-session, only to burst into renewed activity near the close. October finished at 70, December at 71-8 to 72, and May at 77 cents.

The deferred future was the weakest option throughout the session. Hedging pressure was noticeably light, and purchases for export were estimated at only 250,000 bushels.

"Cash grains trading was slow, while coarse grains operations were routine in character. However, prices followed the trend in wheat futures.

"PUTTING UP A BOLD FRONT"

This is a popular phrase in modern speech to describe one who tries to make a good impression, to show a spirit of complete independence of outside opinion. It may seem like modern slang, but Macaulay, in the early nineteenth century wrote that, "The inhabitants showed a bold front"—and many others before him used the term in this way.

What is interesting about this expression is that "bold front" really means a "bold forehead," for this bit of characteristically modern slang harks back to the Latin "frons," meaning "brow" or "forehead."

Shakespeare said, "Orim-viaged war hath smoothed his wrinkled front."

"Say, that fiver you lent me yesterday was a counterfeite."

"Well, didn't you say you wanted it bad?"

ANSWER TO YESTERDAY'S PUZZLE

NEWS OF B.C. MINING

New Strike at Bralorne Mine Is Sensational

Vein Three and a Half Feet in Width and Heavily Impregnated With Free Gold Believed to Be Lost Wedge Ore Body—Value of Property Greatly Enhanced

LILLOOET, Sept. 19.—(Sensational) news are said to be present in a strike made on the Bralorne gold mine during the past ten days, on a vein which may well prove to be the equivalent of a new mine in itself.

Some time ago a small fissure was cut in the cross-cut from the king vein driven on the eighth level to pick up the shaft vein. It was thought at that time that this fissure was the Wedge vein, but the unknown vein cut several days later, and carrying exceedingly high values in gold is now believed to be the sought ore body.

HIGH-GRADE ORE

The new strike is very strong, and in the past six days of development has disclosed some exceptionally high-grade gold ore, which will bring the assays up to almost unbelievable values. How much of this bonanza ore there is, however, has not yet been determined.

EASTERN FIRMS BACK B.C. MINE

Cariboo Goldfields, Limited, Is Financed by Prominent Corporations

VANCOUVER, Sept. 19.—Financing of the B.C. Cariboo Gold Fields was completed in the East last week, it was announced here by C. P. Riel, managing director of the company. According to Mr. Riel several large houses in the East have combined in the financing of the venture, and heads of these concerns will likely be given positions on the board of directors of the company. Prominent among the corporations subscribing capital are A. E. Osler & Co., Jenks, Gwynn & Co., C. Gordon Flaxton and the Newmont Mining Corporation.

Development on the four properties now being operated will not be increased. There are two properties adjoining the Bralorne in the Bridge River district, one at Moyie and one at Barkerville. On one of the Bridge River properties mechanical trenching and stripping to penetrate the heavy overburden of soil and volcanic ash is being carried out under the direction of Dr. Victor Dolmage. Mechanical trenching is an entirely new process for Canada, and will be watched in that district with considerable interest.

Silver Mines in B.C. Would Profit By Stabilization

Silver camps in British Columbia stand to benefit by the stabilization of silver at \$1.10 per ounce. This is the figure suggested in plans before President Roosevelt yesterday, according to an announcement made recently at Reno, Nevada, by Senator Key Pittman.

This would automatically raise the price in the United States from 35.5 cents. Based on the United States production figures of 24,000,000 ounces, it would represent an earning value of \$30,000,000.

The Nevada Senator said he understood the legality of the plan of directing United States mints to accept silver bullion from domestic producers had been submitted to the Attorney-General for an opinion.

It has been estimated that many of the idle camps in the Portland Canal and Skeena districts would become productive on fifty-cent silver. On the basis of last year's production in British Columbia, the output on the 31.6-cent average

VIBETTE GOLD MINES ACTIVE

Extensive Development Being Undertaken—Pilot Mill Handling Ore

A six months' intensive development programme is now being carried out by the Vibette Gold Mines Ltd., property near Kamloops to prove up the vein over a length of 1,000 feet to a depth of 500 feet by December of this year, according to word received here recently.

Development on the site at the rate of about 200 tons a month is now being put through the pilot mill, which, besides yielding an appreciable revenue, has provided the management with valuable information regarding the larger operation planned for the future.

Representing recovery from development on the site during the year, July and part of August, the first shipment of concentrates was made to the smelter this week. This shipment is reported to yield gross returns of \$10,000, besides bullion recovery.

OPTIONED LAST SPRING

The property was optioned last Spring from D. B. Sterrett under terms calling for development of the veins already opened by tunneling and for improvements to the mill to place it on the basis of a thirty-ton daily operation.

The company has carried on a systematic development programme since that time, official reports indicating satisfactory progress in the development of the main ore body at depth. A crew of sixty men, with complete mining equipment, is on the property.

The present development scheme will continue drifting on the vein for a total length of 1,000 feet, sinking a new main shaft eleven feet, seven, inside timbers, to a depth of 500 feet, and continuing the winze below No. 1 level for a further 300 feet.

GREAT CONTINUITY

Outside the length at present planned for development, the vein shows evidence of great continuity. Work being started on the Broken Ridge shaft a distance of 300 feet from the south face of No. 1 level, where a shoot of ore has been so far proved for 100 feet in length with an average value of \$35 per ton over sixteen inches in width.

The management reports that the mill ran 300 hours in August on development ore, treating 233 tons with an average head value of \$15.20 per ton. To date a total of 513 tons of ore have been treated with average heads of \$16.60 per ton.

Up to the time the present company took over, surface work had proved the continuity of the vein for 250 feet farther north than the face of the tunnel, while 400 feet south of the tunnel face surface trenching had proved for 100 feet, a vein averaging sixteen inches in width and assays from average samples \$25 per ton.

CARBID GOLD QUARTZ SHIPS ANOTHER BRICK

The fifth gold brick from the Cariboo Gold Quartz Mining Company property, valued at some \$36,000, was shipped recently, bringing the total value of the production this year to \$141,000, according to reports from the Cariboo. About \$400,000 is reported in the company's treasury to finance future programmes.

The company was recently host to a party of business men representing the Vancouver Board of Trade, who were making a tour of the Cariboo area, principal interest in which centres about the company's operations.

OPERATIONS RESUMED IN MINE AT FIELD

FIELD, Sept. 19 (CP).—Base Metals Mining Corporation, which closed down its plant here in 1930, when low prices made production unprofitable, has resumed operations following the recent increase in prices of lead and silver. Milling has been set at 8,000 tons monthly against 8,000 tons prior to the shutdown.

The doctor stuck a thermometer in the flapper patient's mouth. "Thank you," she said. "Have you a match?"

The bidding: (Figures after 50% refer to numbered explanatory paragraphs.)
